ABOUT ME

I'm Daiane, a Certified Full Stack Developer. I've been on this road for about 5 years, helping companies to develop their ideas and plan strategic projects.

WORK EXPERIENCE

Department Head

Round Pegs | December, 2020 - January, 2023

Consultancy process to optimize tech teams performance for companies such as Mercedes Benz, Mapfre and others. In addition, I worked on creating a MicroSaaS from scratch, from discovering the market viability to developing its software.

Business Intelligence Analyst

GhFly | November, 2019 - June, 2020

My journey as a B.I analyst was essential to bring me expertise in Data Science, as extraction and visualization through Javascript, Python and measurement tools.

Full Stack Developer

Hilab | June, 2019 - November, 2019

I had the opportunity of helping to build systems interfaces, using Javascript, PHP, Python, and others.

The daily routine at the company was based on agile methodologies, which made me learn to work in a efficient fast way.

Business Intelligence Analyst

Appen | November, 2018 - October, 2019

Specialist in analyzing large volumes of data and information. The position requires extensive knowledge of data extraction tools, as well as programming using Python to extract all types of data intelligently and effectively.
